PROSPECTUS

BLACKROCK MONEY MARKET PORTFOLIO

Ticker Symbol: PNPXX

JULY 28, 2017

BlackRock Money Market Portfolio is a portfolio of BlackRock FundsSM managed by BlackRock Advisors, LLC and available to Westcore Investors for investment and exchanges.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

The Securities and Exchange Commission has not approved or disapproved of the Fund's shares or determined if this prospectus is accurate or complete. It is a criminal offense to state otherwise.

SUPPLEMENTAL INSTRUCTIONS FOR WESTCORE INVESTORS

The following supplemental instructions are provided for Westcore investors who wish to purchase or exchange shares of the Money Market Portfolio described in the attached prospectus through an account at Westcore Funds. Westcore investors owning shares in the Money Market Portfolio have full exchange privileges with the Westcore Funds (except if a redemption gate is in place). With your money market account, you may, for example, automatically add to your balance as well as exchange all or a portion of your balance into one or more of the Westcore Funds. Please note: purchase of the Money Market Portfolio through your Westcore account is limited to direct Westcore shareholders who are natural persons.

PURCHASES, REDEMPTIONS & EXCHANGES

Minimum Initial and Subsequent Purchases:

There is a \$1,000 minimum initial investment if investors choose an automatic monthly investment option. Otherwise, the minimum initial investment is \$2,500* (\$1,000 for participants in Retirement, Education Savings and UGMA/UTMA Accounts). The minimum subsequent and automatic monthly investment for all accounts is \$25.**

* Existing accounts and automatic investment plans established before October 1, 2000 are entitled to reduced investment minimums. \$1,000 for existing regular accounts and \$250 for existing retirement or UGMA/UTMA accounts.

** The Westcore Automatic Investment Plan does not assure a profit and does not protect against a loss in a declining market.

Regular Transactions:

Purchases and redemptions by mail should be sent to Westcore Funds as follows:

Via Regular Mail:

Westcore Funds
P.O. Box 44323
Denver, CO 80201

Via Express/Overnight Mail:

Westcore Funds
1290 Broadway, Suite 1100
Denver, CO 80203

Please make checks payable to Westcore Funds. Purchases by check will be processed at the net asset value determination next occurring after your order is received and accepted by Westcore. Please note that cash, credit card checks, traveler's checks, money orders, instant loan checks, third-party checks, checks drawn on foreign banks, cashier's checks, or checks with inconsistencies between the name on the bank account and fund account registration will not be accepted for purchases. Westcore reserves the right to reject any purchase order or any redemption by check that appears suspicious or fraudulent or is not otherwise in good order. Signature guarantees may be required for certain transactions.

Customer Identification Program:

Federal regulations require the Fund to obtain your name, your date of birth (for a natural person), your residential address, or principal place of business (as the case may be) and (if different) mailing address, and your Social Security number, Employer Identification Number (EIN) or other government-issued identification when you open an account. Additional information may be required in certain circumstances. Account Applications without such information may not be accepted. **Under applicable anti-money laundering regulations and other federal regulations, redemption requests may be suspended, restricted, canceled, or processed and the proceeds may be withheld.** To the extent permitted by applicable law, Westcore Funds reserves the right to place limits on transactions in your account until your identity is verified.

Fund Overview

Investment Objective

The investment objective of BlackRock Money Market Portfolio (“Money Market Portfolio” or the “Fund”), a series of BlackRock FundsSM (the “Trust”), is to seek as high a level of current income as is consistent with maintaining liquidity and stability of principal.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold Service Shares of the Fund.

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	Service Shares
Management Fee	0.45%
Service Fees	0.25%
Other Expenses	0.19%
Total Annual Fund Operating Expenses	0.89%
Fee Waivers and/or Expense Reimbursements ¹	(0.39)%
Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements ¹	0.50%

¹ As described in the “Management of the Fund” section of the Fund’s prospectus beginning on page 17, BlackRock Advisors, LLC (“BlackRock”) has contractually agreed to waive and/or reimburse fees or expenses in order to limit Service Shares Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements (excluding Dividend Expense, Interest Expense, Acquired Fund Fees and Expenses and certain other Fund expenses) to 0.50% of average daily net assets through July 31, 2018. The Fund may have to repay some of these waivers and/or reimbursements to BlackRock in the following two years. The agreement may be terminated upon 90 days’ notice by a majority of the non-interested trustees of the Trust or by a vote of a majority of the outstanding voting securities of the Fund.

Example:

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Service Shares	\$51	\$245	\$455	\$1,060

Principal Investment Strategies of the Fund

The Fund seeks to achieve its investment objective by investing in a broad range of short-term, high quality U.S. dollar-denominated money market instruments, including government, U.S. and foreign bank, commercial and other obligations. The Fund invests in securities maturing in 397 days or less (with certain exceptions), and the portfolio will have a dollar-weighted average maturity of 60 days or less and a dollar-weighted average life of 120 days or less. Under normal market conditions, at least 25% of the Fund’s total assets will be invested in obligations of issuers in the financial services industry or in obligations, such as repurchase agreements, secured by such obligations.

The Fund may purchase variable and floating rate notes, which are instruments that provide for adjustments in the interest rate on certain reset dates or whenever a specified interest rate index changes, respectively. The Fund may transact in securities on a when-issued, delayed delivery or forward commitment basis.

The Fund seeks to maintain a net asset value (“NAV”) of \$1.00 per share.

The securities purchased by the Fund are subject to the quality, diversification and other requirements of Rule 2a-7 under the Investment Company Act of 1940, as amended (the “Investment Company Act”), and other rules of the Securities and Exchange Commission. The Fund will only purchase securities that present minimal credit risk as

determined by BlackRock, the Fund's investment manager, pursuant to guidelines approved by the Trust's Board of Trustees (the "Board").

Principal Risks of Investing in the Fund

Risk is inherent in all investing. You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

The following is a summary description of principal risks of investing in the Fund.

- **Asset-Backed Securities Risk** — Asset-backed securities represent interests in "pools" of assets, including consumer loans or receivables held in trust. Asset-backed securities are subject to credit, interest rate, prepayment and extension risks. These securities also are subject to risk of default on the underlying asset, particularly during periods of economic downturn.
- **Credit Risk** — Credit risk refers to the possibility that the issuer of a security will not be able to make payments of interest and principal when due. Changes in an issuer's credit rating or the market's perception of an issuer's creditworthiness may also affect the value of the Fund's investment in that issuer.
- **Extension Risk** — When interest rates rise, certain obligations will be paid off by the obligor more slowly than anticipated, causing the value of these securities to fall.
- **Financial Services Industry Risk** — Because of its concentration in the financial services industry, the Fund will be more susceptible to any economic, business, political or other developments which generally affect this industry sector. As a result, the Fund will be exposed to a large extent to the risks associated with that industry, such as government regulation, the availability and cost of capital funds, consolidation and general economic conditions. Financial services companies are also exposed to losses if borrowers and other counterparties experience financial problems and/or cannot repay their obligations.

When interest rates go up, the value of securities issued by many types of financial services companies generally goes down. In many countries, financial services and the companies that provide them are regulated by governmental entities, which can increase costs for new services or products and make it difficult to pass increased costs on to consumers. In certain areas, deregulation of financial services companies has resulted in increased competition and reduced profitability for certain companies.

The profitability of many types of financial services companies may be adversely affected in certain market cycles, including periods of rising interest rates, which may restrict the availability and increase the cost of capital, and declining economic conditions, which may cause credit losses due to financial difficulties of borrowers. Because many types of financial services companies are vulnerable to these economic cycles, a large portion of the Fund's investments may lose value during such periods.

- **Foreign Exposure Risk** — Securities issued or supported by foreign entities, including foreign banks and corporations, may involve additional risks and considerations. Extensive public information about the foreign issuer may not be available, and unfavorable political, economic or governmental developments in the foreign country involved could affect the payment of principal and interest.
- **Income Risk** — Income risk is the risk that the Fund's yield will vary as short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.
- **Interest Rate Risk** — Interest rate risk is the risk that the value of a debt security may fall when interest rates rise. In general, the market price of debt securities with longer maturities will go up or down more in response to changes in interest rates than the market price of shorter-term securities. Due to fluctuations in interest rates, the market value of such securities may vary during the period shareholders own shares of the Fund.
- **Liquidity Fee and Redemption Gate Risk** — The Board has discretion to impose a liquidity fee of up to 2% upon sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. Accordingly, you may not be able to sell your shares or your redemptions may be subject to a liquidity fee when you sell your shares at certain times.
- **Market Risk and Selection Risk** — Market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. Selection risk is

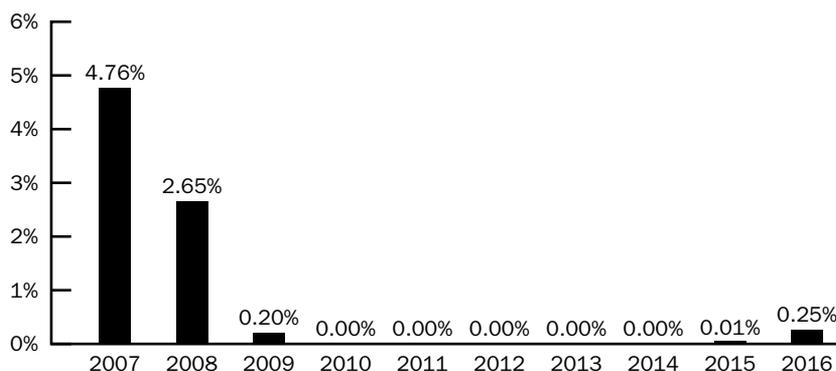

the risk that the securities selected by Fund management will underperform the markets, the relevant indices or the securities selected by other funds with similar investment objectives and investment strategies. This means you may lose money.

- **Prepayment Risk** — When interest rates fall, certain obligations will be paid off by the obligor more quickly than originally anticipated, and the Fund may have to invest the proceeds in securities with lower yields.
- **Repurchase Agreements and Purchase and Sale Contracts Risk** — If the other party to a repurchase agreement or purchase and sale contract defaults on its obligation under the agreement, the Fund may suffer delays and incur costs or lose money in exercising its rights under the agreement. If the seller fails to repurchase the security in either situation and the market value of the security declines, the Fund may lose money.
- **Stable Net Asset Value Risk** — The Fund may not be able to maintain a stable NAV of \$1.00 per share at all times. If the Fund fails to maintain a stable NAV (or if there is a perceived threat of such a failure), the Fund, along with other money market funds, could be subject to increased redemption activity.
- **U.S. Government Obligations Risk** — Certain securities in which the Fund may invest, including securities issued by certain U.S. Government agencies and U.S. Government sponsored enterprises, are not guaranteed by the U.S. Government or supported by the full faith and credit of the United States.
- **Variable and Floating Rate Instrument Risk** — The absence of an active market for these securities could make it difficult for the Fund to dispose of them if the issuer defaults.
- **When-Issued and Delayed Delivery Securities and Forward Commitments Risk** — When-issued and delayed delivery securities and forward commitments involve the risk that the security the Fund buys will lose value prior to its delivery. There also is the risk that the security will not be issued or that the other party to the transaction will not meet its obligation. If this occurs, the Fund may lose both the investment opportunity for the assets it set aside to pay for the security and any gain in the security’s price.

Performance Information

The information shows you how the Fund’s performance has varied year by year and provides some indication of the risks of investing in the Fund. To the extent that dividends and distributions have been paid by the Fund, the performance information for the Fund in the chart and table assumes reinvestment of the dividends and distributions. As with all such investments, past performance is not an indication of future results. The table includes all applicable fees. If BlackRock and its affiliates had not waived or reimbursed certain Fund expenses during these periods, the Fund’s returns would have been lower. The Fund is a money market fund managed pursuant to the requirements of Rule 2a-7 under the Investment Company Act. Effective May 28, 2010, Rule 2a-7 was amended to impose new liquidity, credit quality and maturity requirements on all money market funds. Fund performance shown prior to May 28, 2010 is based on Investment Company Act rules then in effect and is not an indication of future returns. Updated information on the Fund’s performance can be obtained by phone at (800) 392-CORE (2673).

Service Shares
ANNUAL TOTAL RETURNS
Money Market Portfolio
As of 12/31

During the ten-year period shown in the bar chart, the highest return for a quarter was 1.20% (quarter ended September 30, 2007) and the lowest return for a quarter was 0.00% (quarter ended September 30, 2015). The year-to-date return as of June 30, 2017 was 0.33%.

As of 12/31/16 Average Annual Total Returns	1 Year	5 Years	10 Years
Money Market Portfolio — Service Shares Return Before Taxes	0.25%	0.05%	0.78%

To obtain the Fund's current 7-day yield, call (800) 392-CORE (2673).

Investment Manager

The Fund's investment manager is BlackRock Advisors, LLC (previously defined as "BlackRock").

Purchase and Sale of Fund Shares

The Fund is a retail money market fund and is intended only for sale to beneficial owners who are natural persons.

You may generally purchase or redeem shares of the Fund each day on which both the New York Stock Exchange and the Federal Reserve Bank of Philadelphia are open.

To purchase or sell shares of the Fund you should contact your financial professional or your selected securities dealer, broker, investment adviser, service provider or industry professional (including BlackRock, The PNC Financial Services Group, Inc. and their respective affiliates) (each a "Financial Intermediary"), or, if you hold your shares through the Fund, you should contact the Fund by phone at (800) 392-CORE (2673), by mail (c/o BlackRock Funds, P.O. Box 9819, Providence, Rhode Island 02940-8019), or by the Internet at www.blackrock.com.

The Fund's initial and subsequent investment minimums generally are as follows, although the Fund may reduce or waive the minimums in some cases.

	Service Shares
Minimum Initial Investment	\$5,000
Minimum Additional Investment	No subsequent minimum.

Tax Information

The Fund's dividends and distributions may be subject to federal income taxes and may be taxed as ordinary income or capital gains, unless you are a tax-exempt investor or are investing through a retirement plan, in which case you may be subject to federal income tax upon withdrawal from such tax-deferred arrangements.

Payments to Broker/Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a Financial Intermediary, the Fund and BlackRock Investments, LLC, the Fund's distributor, or its affiliates may pay the Financial Intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the Financial Intermediary and your individual financial professional to recommend the Fund over another investment. Ask your individual financial professional or visit your Financial Intermediary's website for more information.

Details About the Fund

Included in this prospectus are sections that tell you about buying and selling shares, management information, shareholder features of BlackRock Money Market Portfolio (“Money Market Portfolio” or the “Fund”), a series of BlackRock FundsSM (the “Trust”), and your rights as a shareholder.

How the Fund Invests

The Fund is a retail money market fund managed pursuant to Rule 2a-7 under the Investment Company Act of 1940, as amended (the “Investment Company Act”).

- The Fund seeks to maintain a net asset value (“NAV”) of \$1.00 per share.
- The Fund will maintain a dollar-weighted average maturity of 60 days or less and a dollar-weighted average life of 120 days or less. For a discussion of dollar-weighted average maturity and dollar-weighted average life, please see the Glossary on page 25.
- Pursuant to Rule 2a-7, the Fund is subject to a “general liquidity requirement” that requires that the Fund hold securities that are sufficiently liquid to meet reasonably foreseeable shareholder redemptions in light of its obligations under Section 22(e) of the Investment Company Act regarding share redemptions and any commitments the Fund has made to shareholders. To comply with this general liquidity requirement, BlackRock Advisors, LLC (“BlackRock”) must consider factors that could affect the Fund’s liquidity needs, including characteristics of the Fund’s investors and their likely redemptions. Depending upon the volatility of its cash flows (particularly shareholder redemptions), this may require the Fund to maintain greater liquidity than would be required by the weekly minimum liquidity requirement discussed below.
- The Fund will not acquire any illiquid security (*i.e.*, securities that cannot be sold or disposed of in the ordinary course of business within seven days at approximately the value ascribed to them by the Fund) if, immediately following such purchase, more than 5% of the Fund’s total assets are invested in illiquid securities. The Fund will not acquire any security other than a daily liquid asset unless, immediately following such purchase, at least 10% of its total assets would be invested in daily liquid assets, and the Fund will not acquire any security other than a weekly liquid asset unless, immediately following such purchase, at least 30% of its total assets would be invested in weekly liquid assets. For a discussion of daily liquid assets and weekly liquid assets, please see the Glossary on page 25.
- The Fund invests in securities maturing within 13 months or less from the date of purchase, with certain exceptions. For example, certain government securities held by the Fund may have remaining maturities exceeding 13 months if such securities provide for adjustments in their interest rates not less frequently than every 13 months.
- The securities purchased by the Fund are subject to the quality, diversification, and other requirements of Rule 2a-7, and other rules of the Securities and Exchange Commission (the “SEC”). The Fund will purchase securities (or issuers of such securities) that are Eligible Securities that present minimal credit risk as determined by BlackRock pursuant to guidelines approved by the Trust’s Board of Trustees (the “Board”). For a discussion of Eligible Securities, please see the Glossary on page 25.

The Board will be permitted to impose a liquidity fee on redemptions from the Fund (up to 2%) or temporarily restrict redemptions from the Fund for up to 10 business days during a 90 day period under certain circumstances. Please see the section below titled “Account Information — Liquidity Fees and Redemption Gates” for additional information about liquidity fees and redemption gates.

Investment Objective

The investment objective of the Fund is to seek as high a level of current income as is consistent with maintaining liquidity and stability of principal.

Should the Board determine that the investment objective of the Fund should be changed, shareholders will be given at least 30 days’ notice before any such change is made. However, such change can be effected without shareholder approval.

Principal Investment Strategies

The Fund invests in a broad range of short-term, high quality U.S. dollar-denominated money market instruments, including government, U.S. and foreign bank, commercial and other obligations. The Fund invests in securities maturing in 397 days or less (with certain exceptions), and the portfolio will have a dollar-weighted average maturity of 60 days or less and a dollar-weighted average life of 120 days or less. Under normal market conditions, at least 25% of the Fund's total assets will be invested in obligations of issuers in the financial services industry or in obligations, such as repurchase agreements, secured by such obligations. Specifically, the Fund may invest in:

- U.S. dollar-denominated obligations issued or supported by the credit of U.S. or foreign banks or savings institutions with total assets of more than \$1 billion (including obligations of foreign branches of such banks)
- High quality commercial paper and other obligations issued or guaranteed by U.S. and foreign corporations and other issuers rated (at the time of purchase) A-2 or higher by S&P Global Ratings, P-2 (Prime-2) or higher by Moody's Investors Service, Inc. or F2 or higher by Fitch Ratings, Inc., as well as high quality corporate bonds rated A or higher at the time of purchase by those rating agencies
- Unrated notes, paper and other instruments that are determined by Fund management to be of comparable quality to the instruments described above
- Asset-backed securities (including interests in "pools" of assets such as mortgages, installment purchase obligations and credit card receivables)
- Securities issued or guaranteed by the U.S. Government or by its agencies or authorities
- Dollar-denominated securities issued or guaranteed by foreign governments or their political subdivisions, agencies or authorities
- Repurchase agreements relating to the above instruments

The Fund may purchase variable and floating rate notes, which are instruments that provide for adjustments in the interest rate on certain reset dates or whenever a specified interest rate index changes, respectively. The Fund may transact in securities on a when-issued, delayed delivery or forward commitment basis.

Pursuant to Rule 2a-7 under the Investment Company Act, the Fund will generally limit its purchases of any one issuer's securities (other than U.S. Government obligations and repurchase agreements collateralized by such securities) to 5% of the Fund's total assets, except that up to 25% of its total assets may be invested in securities of one issuer for a period of up to three business days; provided that the Fund may not invest in the securities of more than one issuer in accordance with the foregoing exception at any one time.

Other Strategies

In addition to the principal strategies discussed above, the Fund may also invest or engage in the following investments/strategies:

- **Investment Company Securities** — The Fund may invest in securities issued by other open-end or closed-end investment companies as permitted by the Investment Company Act. A *pro rata* portion of the other investment companies' expenses may be borne by the Fund's shareholders. These investments may include, as consistent with the Fund's investment objective and policies, certain variable rate demand securities issued by closed-end funds, which invest primarily in portfolios of taxable or tax-exempt securities. It is anticipated that the payments made on the variable rate demand securities issued by closed-end municipal bond funds will be exempt from federal income tax.
- **Uninvested Cash Reserves** — The Fund may hold up to 20% of its assets in uninvested cash reserves. Uninvested cash reserves will not earn income.
- **U.S. Treasury Floating Rate Notes** — The Fund may invest in U.S. Treasury Floating Rate Notes (FRNs). These are two-year notes issued by the U.S. Treasury that reset their interest rates on a weekly basis. At maturity, the face value of an FRN is paid to the note holder.

Investment Risks

Risk is inherent in all investing. You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to

the Fund at any time.

The following is a description of certain risks of investing in the Fund.

Principal Risks of Investing in the Fund

■ **Asset-Backed Securities Risk** — Asset-backed securities represent interests in “pools” of assets, including consumer loans or receivables held in trust. Asset-backed securities, like traditional fixed-income securities, are subject to credit, interest rate, prepayment and extension risks.

The Fund’s investments in asset-backed securities are subject to additional risks associated with the nature of the assets and the servicing of those assets. These securities also are subject to the risk of default on the underlying assets, particularly during periods of economic downturn.

Asset-backed securities entail further risks, including the risk that, in certain states, it may be difficult to perfect the liens securing the collateral backing certain asset-backed securities. In addition, certain asset-backed securities are based on loans that are unsecured, which means that there is no collateral to seize if the underlying borrower defaults.

■ **Credit Risk** — Credit risk refers to the possibility that the issuer of a security will not be able to make principal and interest payments when due. Changes in an issuer’s credit rating or the market’s perception of an issuer’s creditworthiness may also affect the value of the Fund’s investment in that issuer. The degree of credit risk depends on both the financial condition of the issuer and the terms of the obligation.

■ **Extension Risk** — When interest rates rise, certain obligations will be paid off by the obligor more slowly than anticipated, causing the value of these securities to fall. Rising interest rates tend to extend the duration of securities, making them more sensitive to changes in interest rates. The value of longer-term securities generally changes more in response to changes in interest rates than shorter-term securities. As a result, in a period of rising interest rates, securities may exhibit additional volatility and may lose value.

■ **Financial Services Industry Risk** — Because of its concentration in the financial services industry, the Fund will be more susceptible to any economic, business, political or other developments which generally affect this industry sector. As a result, the Fund will be exposed to a large extent to the risks associated with that industry, such as government regulation, the availability and cost of capital funds, consolidation and general economic conditions. Financial services companies are also exposed to losses if borrowers and other counterparties experience financial problems and/or cannot repay their obligations.

When interest rates go up, the value of securities issued by many types of financial services companies generally goes down. In many countries, financial services and the companies that provide them are regulated by governmental entities, which can increase costs for new services or products and make it difficult to pass increased costs on to consumers. In certain areas, deregulation of financial services companies has resulted in increased competition and reduced profitability for certain companies.

The profitability of many types of financial services companies may be adversely affected in certain market cycles, including periods of rising interest rates, which may restrict the availability and increase the cost of capital, and declining economic conditions, which may cause credit losses due to financial difficulties of borrowers. Because many types of financial services companies are vulnerable to these economic cycles, a large portion of the Fund’s investments may lose value during such periods.

■ **Foreign Exposure Risk** — Securities issued or supported by foreign entities, including foreign banks and corporations, may involve additional risks and considerations. Extensive public information about the foreign issuer may not be available, and unfavorable political, economic or governmental developments in the foreign country involved could affect the payment of principal and interest.

■ **Income Risk** — The Fund’s yield will vary as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

■ **Interest Rate Risk** — Interest rate risk is the risk that the value of a debt security may fall when interest rates rise. In general, the market price of debt securities with longer maturities will go up or down more in response to changes in interest rates than the market price of shorter-term securities. Due to fluctuations in interest rates, the market value of such securities may vary during the period shareholders own shares of the Fund.

■ **Liquidity Fee and Redemption Gate Risk** — The Board has discretion to impose a liquidity fee of up to 2% upon sale of your shares or may temporarily suspend your ability to sell shares if the Fund’s liquidity falls below required minimums because of market conditions or other factors. Accordingly, you may not be able to sell your shares or your redemptions may be subject to a liquidity fee when you sell your shares at certain times.

■ **Market Risk and Selection Risk** — Market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. Selection risk is

the risk that the securities selected by Fund management will underperform the markets, the relevant indices or the securities selected by other funds with similar investment objectives and investment strategies. This means you may lose money.

- **Prepayment Risk** — When interest rates fall, certain obligations will be paid off by the obligor more quickly than originally anticipated, and the Fund may have to invest the proceeds in securities with lower yields. In periods of falling interest rates, the rate of prepayments tends to increase (as does price fluctuation) as borrowers are motivated to pay off debt and refinance at new lower rates. During such periods, reinvestment of the prepayment proceeds by the management team will generally be at lower rates of return than the return on the assets that were prepaid. Prepayment reduces the yield to maturity and the average life of the security.
- **Repurchase Agreements and Purchase and Sale Contracts Risk** — If the other party to a repurchase agreement or purchase and sale contract defaults on its obligation under the agreement, the Fund may suffer delays and incur costs or lose money in exercising its rights under the agreement. If the seller fails to repurchase the security in either situation and the market value of the security declines, the Fund may lose money.
- **Stable Net Asset Value Risk** — The Fund may not be able to maintain a stable NAV of \$1.00 per share at all times. If the Fund fails to maintain a stable NAV (or if there is a perceived threat of such a failure), the Fund, along with other money market funds, could be subject to increased redemption activity.
- **U.S. Government Obligations Risk** — Not all U.S. Government securities are backed by the full faith and credit of the United States. Obligations of certain agencies, authorities, instrumentalities and sponsored enterprises of the U.S. Government are backed by the full faith and credit of the United States (e.g., the Government National Mortgage Association); other obligations are backed by the right of the issuer to borrow from the U.S. Treasury (e.g., the Federal Home Loan Banks) and others are supported by the discretionary authority of the U.S. Government to purchase an agency's obligations. Still others are backed only by the credit of the agency, authority, instrumentality or sponsored enterprise issuing the obligation. No assurance can be given that the U.S. Government would provide financial support to any of these entities if it is not obligated to do so by law.
- **Variable and Floating Rate Instrument Risk** — The absence of an active market for these securities could make it difficult for the Fund to dispose of them if the issuer defaults.
- **When-Issued and Delayed Delivery Securities and Forward Commitments Risk** — When-issued and delayed delivery securities and forward commitments involve the risk that the security the Fund buys will lose value prior to its delivery. There also is the risk that the security will not be issued or that the other party to the transaction will not meet its obligation. If this occurs, the Fund may lose both the investment opportunity for the assets it set aside to pay for the security and any gain in the security's price.

Other Risks of Investing in the Fund

The Fund may also be subject to certain other risks associated with its investments and investment strategies, including:

- **Expense Risk** — Fund expenses are subject to a variety of factors, including fluctuations in the Fund's net assets. Accordingly, actual expenses may be greater or less than those indicated. For example, to the extent that the Fund's net assets decrease due to market declines or redemptions, the Fund's expenses will increase as a percentage of Fund net assets. During periods of high market volatility, these increases in the Fund's expense ratio could be significant.
- **Investment in Other Investment Companies Risk** — As with other investments, investments in other investment companies, including ETFs, are subject to market and selection risk. In addition, if the Fund acquires shares of investment companies, including ones affiliated with the Fund, shareholders bear both their proportionate share of expenses in the Fund (including management and advisory fees) and, indirectly, the expenses of the investment companies (to the extent not offset by BlackRock through waivers to the Fund's management fees). To the extent the Fund is held by an affiliated fund, the ability of the Fund itself to hold other investment companies may be limited.
- **Liquidity Risk** — Liquidity risk refers to the possibility that it may be difficult or impossible to sell certain positions at an acceptable price.

Account Information

How to Choose the Share Class that Best Suits Your Needs

The Fund currently offers multiple share classes (Service Shares offered through Westcore in this prospectus), allowing you to invest in the way that best suits your needs. Each share class represents the same ownership interest in the portfolio investments of the Fund. When you choose your class of shares, you should consider the size of your investment and how long you plan to hold your shares. Your Westcore representative can help you determine which share class is best suited to your personal financial goals.

The Fund's shares are distributed by BlackRock Investments, LLC (the "Distributor"), an affiliate of BlackRock.

The table below summarizes key features of the Service Share class of the Fund.

Service Shares at a Glance

Availability	Limited to certain investors whose beneficial owner is a natural person, including: financial intermediaries (such as banks and brokerage firms) acting on behalf of their customers, certain persons who were shareholders of the Compass Capital Group of Funds at the time of its combination with The PNC® Fund in 1996 and investors that participate in the Capital Directions SM asset allocation program. Service Shares will normally be held by financial intermediaries or in the name of nominees of financial intermediaries on behalf of their customers. Service Shares are normally purchased through a customer's account at a financial intermediary through procedures established by such financial intermediary. In these cases, confirmation of share purchases and redemptions will be sent to the financial intermediaries. A customer's ownership of shares will be recorded by the financial intermediary and reflected in the account statements provided by such financial intermediaries to their customers. Investors wishing to purchase Service Shares should contact their financial intermediaries.
Minimum Investment	\$5,000. However, financial intermediaries may set a higher minimum for their customers.
Initial Sales Charge?	No. Entire purchase price is invested in shares of the Fund.
Deferred Sales Charge?	No.
Service and Distribution Fees?	No Distribution Fee. 0.25% Annual Service Fee.
Redemption Fees?	The Fund may impose a liquidity fee under certain limited circumstances. See "Liquidity Fees and Redemption Gates" below.
Advantage	No up-front sales charge so you start off owning more shares.
Disadvantage	Limited availability.

Distribution and Shareholder Servicing Payments

Plan Payments

The Fund has adopted a plan (the "Plan") with respect to Service Shares that allows the Fund to pay distribution and service fees for the sale of its shares and shareholder servicing fees for certain services provided to its shareholders. The Fund does not make distribution payments under the Plan with respect to Service Shares.

The shareholder servicing fees payable pursuant to the Plan are paid to compensate brokers, dealers, financial institutions and industry professionals (including BlackRock and The PNC Financial Services Group, Inc. ("PNC") and their respective affiliates) (each, a "Financial Intermediary") for providing support services to their customers who own Service Shares, including responding to customer questions on the services performed by the Financial Intermediary and investments in Service Shares, assisting customers in choosing and changing dividend options, account designations and addresses and providing other similar shareholder liaison services. Because the fees paid by the

Fund under the Plan are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment in the Service Shares of the Fund and may cost you more than paying other types of sales charges.

Other Payments by the Fund

In addition to fees that the Fund may pay to a Financial Intermediary pursuant to the Plan and fees the Fund pays to its transfer agent, BlackRock, on behalf of the Fund, may enter into non-Plan agreements with affiliated and unaffiliated Financial Intermediaries pursuant to which the Fund will pay a Financial Intermediary for administrative, networking, recordkeeping, sub-transfer agency, sub-accounting and/or shareholder services. These non-Plan payments are generally based on either (1) a percentage of the average daily net assets of Fund shareholders serviced by a Financial Intermediary or (2) a fixed dollar amount for each account serviced by a Financial Intermediary. The aggregate amount of these payments may be substantial.

Other Payments by BlackRock

From time to time, BlackRock, the Fund's distributor or their affiliates also may pay a portion of the fees for administrative, networking, recordkeeping, sub-transfer agency, sub-accounting and shareholder services described above at its or their own expense and out of its or their profits. BlackRock, the Fund's distributor and their affiliates may also compensate affiliated and unaffiliated Financial Intermediaries for the sale and distribution of shares of the Fund. These payments would be in addition to the Fund payments described in this prospectus and may be a fixed dollar amount, may be based on the number of customer accounts maintained by the Financial Intermediary, may be based on a percentage of the value of shares sold to, or held by, customers of the Financial Intermediary or may be calculated on another basis. The aggregate amount of these payments by BlackRock, the Fund's distributor and their affiliates may be substantial and, in some circumstances, may create an incentive for a Financial Intermediary, its employees or associated persons to recommend or sell shares of the Fund to you.

Please contact your Financial Intermediary for details about payments it may receive from the Fund or from BlackRock, the Fund's distributor or their affiliates. For more information, see the SAI.

How to Buy and Sell Shares

The chart on the following pages summarizes how to buy and sell shares through Westcore. Because the selection of a mutual fund involves many considerations, Westcore may help you with this decision.

With certain limited exceptions, the Fund is generally available only to investors residing in the United States and may not be distributed by a foreign Financial Intermediary. Under this policy, in order to accept new accounts or additional investments into existing accounts, the Fund generally requires that (i) a shareholder that is a natural person be a U.S. citizen or resident alien, in each case residing within the United States or a U.S. territory (including APO/FPO/DPO addresses), and have a valid U.S. taxpayer identification number, and (ii) a Financial Intermediary or a shareholder that is an entity be domiciled in the United States and have a valid U.S. taxpayer identification number or be domiciled in a U.S. territory and have a valid U.S. taxpayer identification number or IRS Form W-8. Any existing account that is updated to reflect a non-U.S. address will also be restricted from making additional investments.

The Fund may reject any purchase order, modify or waive the minimum initial or subsequent investment requirements for any shareholders and suspend and resume the sale of any share class of the Fund at any time for any reason. In addition, the Fund may waive certain requirements regarding the purchase or sale of shares described below.

The Fund is a retail money market fund and is intended only for sale to beneficial owners who are natural persons. Natural persons may invest in the Fund through certain tax-advantaged savings accounts, trusts and other retirement and investment accounts, which may include, among others: participant-directed defined contribution plans; individual retirement accounts; simplified employee pension arrangements; simple retirement accounts; custodial accounts; deferred compensation plans for government or tax-exempt organization employees; Archer medical savings accounts; college savings plans; health savings account plans; ordinary trusts and estates of natural persons; or certain other retirement and investment accounts with ultimate investment authority held by the natural person beneficial owner, notwithstanding having an institutional decision maker making day to day decisions (e.g., a plan sponsor in certain retirement arrangements or an investment adviser managing discretionary investment accounts). Financial Intermediaries are required to adopt and implement policies, procedures and internal controls reasonably designed to limit all beneficial owners of the Fund to natural persons. Financial Intermediaries are expected to promptly report to the Fund the existence of any shareholder of the Fund that does not qualify as a natural person of whom they are aware, promptly notify such shareholder, and take steps to redeem any such shareholder's Fund shares.

The Fund reserves the right to redeem shares in any account that it cannot confirm to its satisfaction is beneficially owned by a natural person, after providing at least 60 days' advance notice.

Under certain circumstances, if no activity occurs in an account within a time period specified by state law, a shareholder's shares in the Fund may be transferred to that state.

Persons who were shareholders of an investment portfolio of the Compass Capital Group of Funds in 1996 at the time the portfolio combined with The PNC® Fund may purchase and redeem Service Shares of the same fund and for the same account in which they held shares on that date through the procedures described in this section.

How to Buy Shares

	Your Choices	Important Information for You to Know
Initial Purchase	Determine the amount of your investment	Refer to the minimum initial investment in the "Service Shares at a Glance" table of this prospectus.
	Have your Financial Intermediary submit your purchase order	<p>A mutual fund is a pool of investors' money that is used to purchase a portfolio of securities, which in turn is owned in common by the investors. Investors put money into a mutual fund by buying shares. If a mutual fund has a portfolio worth \$5 million and has 5 million shares outstanding, the NAV per share is \$1.00. Although the Fund seeks to maintain an NAV of \$1.00 per share, there is no guarantee it will be able to do so. The price of your shares is based on the next calculation of the Fund's NAV after your order is placed. Any purchase orders placed prior to the close of business on the New York Stock Exchange (the "Exchange") (generally 4:00 p.m. Eastern time) will be priced at the NAV determined that day. Certain Financial Intermediaries, however, may require submission of orders prior to that time.</p> <p>The Fund's investments are valued based on the amortized cost method described in the SAI.</p> <p>Service Shares are sold at the NAV per share determined after an order is received by the Fund's transfer agent, BNY Mellon Investment Servicing (US) Inc. (the "Transfer Agent"). You may place a purchase order for the Fund by telephoning the Fund at (800) 392-CORE (2673) before 12:30 p.m. (Eastern time) on a day both the Exchange and the Federal Reserve Bank of Philadelphia are open (each, a "business day"). If your order is received before 12:30 p.m. (Eastern time) on a day both the Exchange and the Federal Reserve Bank of Philadelphia are open, it will be executed at 12:30 p.m. (Eastern time). If payment for an order is not received by 4:00 p.m. (Eastern time), the order will be cancelled. You will be informed if this should happen. No orders will be accepted after 12:30 p.m. (Eastern time).</p> <p>NAV is calculated separately for each class of shares of the Fund as of the close of business on the Exchange, generally 4:00 p.m. (Eastern time), each day both the Exchange and the Federal Reserve Bank of Philadelphia are open. Shares will not be priced on days the Exchange or the Federal Reserve Bank of Philadelphia are closed. The Fund may elect, in its discretion if it is determined to be in shareholders' best interest, to be open on days when the Exchange is closed due to an emergency.</p> <p>The Fund may reject any order to buy shares and may suspend the sale of shares at any time, including when a redemption gate is in place (see "Account Information — Liquidity Fees and Redemption Gates" below).</p>
Add to Your Investment	Purchase additional shares	There is no minimum amount for additional investments.
	Have your Financial Intermediary submit your purchase order for additional shares	To purchase additional shares you may contact Westcore Investor Service at (800) 392-CORE (2673).
	Acquire additional shares by reinvesting dividends and capital gains	All dividends and capital gains distributions are automatically reinvested without a sales charge. To make any changes to your dividend and/or capital gains distributions options, please call Westcore Investor Service at (800) 392-CORE (2673).

	Your Choices	Important Information for You to Know
How to Pay for Shares	Making payment for purchases	Payment for Service Shares must normally be made in Federal funds or other immediately available funds by your Financial Intermediary but in no event later than 4:00 p.m. (Eastern time) on the day your order is accepted. Payment may also, at the discretion of the Trust, be made in the form of securities that are permissible investments for the Fund. If payment is not received by this time, the order will be canceled and you and your Financial Intermediary will be responsible for any loss to the Fund.

How to Sell Shares

	Your Choices	Important Information for You to Know
Full or Partial Redemption of Shares	Have your Financial Intermediary submit your sales order	<p>Customers of institutions may redeem Service Shares in accordance with the procedures applicable to their accounts with the institutions. These procedures will vary according to the type of account and the institution involved and customers should consult their account managers in this regard. Institutions are responsible for transmitting redemption orders and crediting their customers' accounts with redemption proceeds on a timely basis.</p> <p>Institutions may place redemption orders by telephoning Westcore Investor Service at (800) 392-CORE (2673). Shares are redeemed at NAV per share next determined after receipt of the redemption order. Westcore Investor Service and/or the Distributor will employ reasonable procedures to confirm that instructions communicated by telephone are genuine. The Fund and its service providers will not be liable for any loss, liability, cost or expense for acting upon telephone instructions that are reasonably believed to be genuine in accordance with such procedures.</p> <p>Proceeds for redeemed shares for which a redemption order is received before 12:30 p.m. (Eastern time) on a business day are normally paid in Federal funds wired to the redeeming institution on the same business day, provided that the Fund's custodian is also open for business. Proceeds for redemption orders received between 12:30 p.m. (Eastern time) and 4:00 p.m. (Eastern time) or on a day when the Fund's custodian is closed are normally wired in Federal funds on the next business day following redemption on which the Fund's custodian is open for business.</p> <p>The Fund reserves the right to reinvest any dividend or distribution amounts (e.g., income dividends or capital gains) which you have elected to receive by check should your check be returned as undeliverable or remain uncashed for more than 6 months. No interest will accrue on amounts represented by uncashed checks. Your check will be reinvested in your account at the NAV next calculated, on the day of the investment. When reinvested, those amounts are subject to the risk of loss like any fund investment. If you elect to receive distributions in cash and a check remains undeliverable or uncashed for more than 6 months, your cash election may also be changed automatically to reinvest and your future dividend and capital gains distributions will be reinvested in the Fund at the NAV as of the date of payment of the distribution.</p> <p>The Fund reserves the right to wire redemption proceeds within seven days after receiving a redemption order if, in the judgment of the Fund, an earlier payment could adversely affect the Fund. No charge for wiring redemption payments is imposed by the Fund, although institutions may charge their customer accounts for redemption services. Information relating to such redemption services and charges, if any, should be obtained by customers from their institutions.</p> <p>During periods of substantial economic or market change, telephone redemptions may be difficult to complete. Redemption requests may also be mailed to Westcore Funds, P.O. Box 44323 Denver, CO 80201. The Fund is not responsible for the efficiency of the Federal wire system or the shareholder's firm or bank. The Fund does not currently</p>

	Your Choices	Important Information for You to Know
Full or Partial Redemption of Shares (continued)	Have your Financial Intermediary submit your sales order (continued)	<p>charge for wire transfers. The shareholder is responsible for any charges imposed by the shareholder's bank. To change the name of the single, designated bank account to receive wire redemption proceeds, it is necessary to send a written request to Westcore Funds, P.O. Box 44323, Denver, CO 80201.</p> <p>The Fund or Westcore may refuse a telephone redemption request if it believes it is advisable to do so.</p> <p>Under normal and stressed market conditions, the Fund typically expects to meet redemption requests by using cash or cash equivalents in its portfolio or by selling portfolio assets to generate additional cash.</p> <p>Please see "Account Information — Liquidity Fees and Redemption Gates" for more information.</p>

Fund's Rights

The Fund may:

- Suspend the right of redemption if trading is halted or restricted on the Exchange or under other emergency conditions described in the Investment Company Act;
- Postpone the date of payment upon redemption if trading is halted or restricted on the Exchange or under other emergency conditions described in the Investment Company Act or if a redemption request is made before the Fund has collected payment for the purchase of shares;
- Redeem shares for property other than cash as may be permitted under the Investment Company Act; and
- Redeem shares involuntarily in certain cases, such as when the value of a shareholder account falls below a specified level or if the Fund does not believe the account is for a natural person.

Suspension of Redemptions Upon Liquidation. If the Board, including a majority of the trustees who are not "interested persons" of the Trust as defined in the Investment Company Act, determines either that (1) the Fund has invested, at the end of a business day, less than 10% of its total assets in weekly liquid assets, or (2) the Fund's calculated NAV per share has deviated from \$1.00 or such deviation is likely to occur; then the Board, subject to certain conditions, may, where the Board has determined to liquidate the Fund irrevocably, suspend redemptions and payment of redemption proceeds in order to facilitate the permanent liquidation of the Fund in an orderly manner. If this were to occur, it would likely result in a delay in your receipt of your redemption proceeds.

Note on Low Balance Accounts. Because of the high cost of maintaining smaller shareholder accounts, BlackRock has set a minimum balance of \$500 in each Fund position you hold within your account (the "Fund Minimum"), and may redeem the shares in your account if the NAV of those shares in your account falls below \$500 for any reason, including market fluctuation.

You will be notified that the value of your account is less than the Fund Minimum before the Fund makes any involuntary redemption. This notification will provide you with a 90 calendar day period to make an additional investment in order to bring the value of your account to at least \$500 before the Fund makes an involuntary redemption. This involuntary redemption will not charge any deferred sales charge, and may not apply to accounts of certain employer-sponsored retirement plans (not including IRAs), qualified state tuition plan (529 Plan) accounts, and select fee-based programs at your Financial Intermediary.

Liquidity Fees and Redemption Gates

Under Rule 2a-7, the Board is permitted to impose a liquidity fee up to 2% on the value of shares redeemed or temporarily restrict redemptions from the Fund for up to 10 business days during a 90 day period, in the event that the Fund's weekly liquid assets fall below the following thresholds:

- 30% weekly liquid assets — If the weekly liquid assets of the Fund fall below 30% of the Fund's total assets, and the Board determines it is in the best interests of the Fund, the Board may impose at any time, and as early as the same day, a liquidity fee of up to 2% of the amount redeemed, or a redemption gate that temporarily suspends the right of redemption.
- 10% weekly liquid assets — If the weekly liquid assets of the Fund fall below 10% of the Fund's total assets as of the end of a business day, the Board will impose, at the beginning of the next business day, a liquidity fee of 1% of

the amount redeemed, unless the Board determines that imposing such a fee would not be in the best interests of the Fund or determines that a lower or higher fee (not to exceed 2%) would be in the best interests of the Fund.

Liquidity fees and redemption gates, if imposed, may be terminated at any time in the discretion of the Board. Liquidity fees and redemption gates will also automatically terminate at the beginning of the next business day once the Fund has invested 30% or more of its total assets in weekly liquid assets as of the end of a business day.

If the Board imposes a liquidity fee, the fee will be used to help boost the weekly liquid assets of the Fund. The Fund may not accept purchases during the period that a liquidity fee has been imposed.

If the Board imposes a redemption gate, the Fund will not accept purchase or redemption orders until the Fund has notified shareholders that the redemption gate has been lifted. Any purchase or redemption orders submitted while a redemption gate is in effect will be cancelled without further notice. If you still wish to purchase or redeem shares once the redemption gate has been lifted, you will need to submit a new purchase or redemption request to the Fund or your Financial Intermediary. If a purchase or redemption order is received after the applicable deadline of the Fund, but prior to the imposition of a liquidity fee or a redemption gate, such order will be cancelled without further notice.

Under certain circumstances, the Fund may honor redemption orders (or pay redemptions without adding a liquidity fee to the redemption amount) if the Fund can verify that the redemption order was submitted to the Fund's authorized agent before the Board imposed a liquidity fee or suspended redemptions.

The Board generally expects that a liquidity fee or redemption gate would be imposed, if at all, during periods of extraordinary market stress. The Board expects that a liquidity fee or redemption gate would typically be imposed only after the Fund has notified Financial Intermediaries and shareholders that a liquidity fee or redemption gate will be imposed (which may not be until the beginning of the next business day following the announcement that the Board has imposed the liquidity fee or redemption gate). However, the Board may, in its discretion, impose a liquidity fee or redemption gate at any time after the weekly liquid assets of the Fund fall below 30% of the Fund's total assets.

Announcements regarding the imposition of a liquidity fee or redemption gate, or the termination of a liquidity fee or redemption gate, will be filed with the SEC on Form N-CR and will be available on the website of the Fund (www.blackrock.com/cash). In addition, the Fund will make such announcements through a supplement to their registration statements and may further communicate such actions through other means.

Financial Intermediaries will be required promptly to take such actions reasonably requested by the Fund or its agent to implement, modify or remove, or to assist the Fund in implementing, modifying or removing, a liquidity fee or redemption gate established by the Board.

Short-Term Trading Policy

Market timing is an investment technique involving frequent short-term trading of mutual fund shares designed to exploit market movements or inefficiencies in the way a mutual fund prices its shares. The Board has evaluated the risks of market timing activities by the Fund's shareholders and has determined that due to (i) the Fund's policy of seeking to maintain the Fund's NAV per share at \$1.00 each day, (ii) the nature of the Fund's portfolio holdings, and (iii) the nature of the Fund's shareholders, it is unlikely that (a) market timing would be attempted by the Fund's shareholders or (b) any attempts to market time the Fund by shareholders would result in a negative impact to the Fund or its shareholders. As a result, the Board has not adopted policies and procedures to deter short-term trading in the Fund. There can be no assurances, however, that the Fund may not, on occasion, serve as a temporary or short-term investment vehicle for those who seek to market time funds offered by other investment companies.

Master/Feeder Structure

The Fund may in the future determine to become a "feeder" fund that invests all of its assets in another open-end investment company (a "master fund") that has the same investment objective and strategies as the Fund. This structure is sometimes called a "master/feeder" structure. Investors in a feeder fund will acquire an indirect interest in the corresponding master fund. In a master/feeder structure, all investments will be made at the master level and the Fund's investment results will correspond directly to the investment results of the underlying master in which it invests. A feeder fund may withdraw from its master fund at any time and may invest all of its assets in another pooled investment vehicle or retain an investment adviser to manage its assets directly.

A master fund may accept investments from other feeder funds, and all the feeder funds of a given master fund bear the master fund's expenses in proportion to their assets. This structure may enable the feeder funds to reduce costs through economies of scale. A larger investment portfolio may also reduce certain transaction costs to the extent that

contributions to and redemptions from a master fund from different feeder funds may offset each other and produce a lower net cash flow.

However, each feeder fund can set its own transaction minimums, fund specific expenses, and other conditions. This means that one feeder fund could offer access to the same master fund on more attractive terms, or could experience better performance, than another feeder fund. In addition, large purchases or redemptions by one feeder fund could negatively affect the performance of other feeder funds that invest in the same master fund.

Whenever a master fund holds a vote of its feeder funds, a fund that is a feeder fund investing in that master fund will pass the vote through to its own shareholders. Smaller feeder funds may be harmed by the actions of larger feeder funds. For example, a larger feeder fund could have more voting power than a fund that is a feeder fund over the operations of its master fund.

Management of the Fund

BlackRock

BlackRock, the Fund's investment adviser, manages the Fund's investments and its business operations subject to the oversight of the Board. While BlackRock is ultimately responsible for the management of the Fund, it is able to draw upon the research and expertise of its asset management affiliates for portfolio decisions and management with respect to certain portfolio securities. BlackRock is an indirect, wholly-owned subsidiary of BlackRock, Inc.

BlackRock, a registered investment adviser, was organized in 1994 to perform advisory services for investment companies. BlackRock and its affiliates had approximately [\$4.890] trillion in investment company and other portfolio assets under management as of June 30, 2017.

BlackRock serves as manager to the Fund pursuant to a management agreement (the "Management Agreement"), which provides that BlackRock is entitled to fees computed daily and payable monthly. The maximum annual management fee rate that the Fund can pay to BlackRock (as a percentage of average daily net assets) is calculated as follows:

Average Daily Net Assets	Rate of Management Fee
First \$1 billion	0.450%
\$1 billion – \$2 billion	0.400%
\$2 billion – \$3 billion	0.375%
Greater than \$3 billion	0.350%

BlackRock has contractually agreed to cap net expenses (excluding: (i) interest, taxes, dividends tied to short sales, brokerage commissions, and other expenditures which are capitalized in accordance with generally accepted accounting principles; (ii) expenses incurred directly or indirectly by the Fund as a result of investments in other investment companies and pooled investment vehicles; (iii) other expenses attributable to, and incurred as a result of, the Fund's investments; and (iv) other extraordinary expenses not incurred in the ordinary course of the Fund's business, if any) of Service Shares of the Fund at the levels shown below and in the Fund's fees and expenses table in the "Fund Overview" section. Items (i), (ii), (iii) and (iv) in the preceding sentence are referred to in this prospectus as "Dividend Expense, Interest Expense, Acquired Fund Fees and Expenses and certain other Fund expenses." To achieve this expense cap, BlackRock has agreed to waive and/or reimburse fees or expenses if these operating expenses exceed a certain limit.

With respect to the Fund, BlackRock has contractually agreed to waive and/or reimburse fees or expenses in order to limit Total Annual Fund Operating Expenses to the amount noted in the table below.

	Contractual Cap¹ on Total Annual Operating Expenses² (excluding Dividend Expense, Interest Expense, Acquired Fund Fees and Expenses and certain other Fund expenses)
Service Shares	0.50%

¹ The contractual cap is in effect through July 31, 2018. The contractual agreement may be terminated upon 90 days' notice by a majority of the non-interested trustees of the Trust or by a vote of a majority of the outstanding voting securities of the Fund.

² As a percentage of average daily net assets.

BlackRock and the Distributor have voluntarily agreed to waive a portion of their respective fees and/or reimburse operating expenses to enable the Fund to maintain minimum levels of daily net investment income. BlackRock and the Distributor may discontinue this voluntary waiver and/or reimbursement at any time without notice.

With respect to the contractual agreement to cap net expenses, if during the Fund's fiscal year the operating expenses of a share class, that at any time during the prior two fiscal years received a waiver or reimbursement from BlackRock, are less than the expense limit for that share class, the share class is required to repay BlackRock up to the lesser of

(a) the amount of fees waived or expenses reimbursed during those prior two fiscal years under the agreement and (b) the amount by which the expense limit for that share class exceeds the operating expenses of the share class for the current fiscal year, provided that (i) the Fund of which the share class is a part has more than \$50 million in assets and (ii) BlackRock or an affiliate serves as the Fund's manager or administrator. This repayment applies only to the contractual caps on net expenses and does not apply to any voluntary waivers that may be in effect from time to time. The Fund may only make repayments to BlackRock of amounts waived and/or reimbursed by BlackRock if such repayments do not cause the Fund's net expense ratio, taking into account such repayments, to exceed either: (i) the Fund's expense cap in place at the time such waivers and/or reimbursements were made; or (ii) the Fund's current expense cap at the time of such repayment.

For the fiscal year ended March 31, 2017, the Fund paid BlackRock aggregate management fees, net of any applicable waivers, equal to [0.16%] of the Fund's average daily net assets.

A discussion of the basis for the Board's approval of the Management Agreement with respect to the Fund is included in the Fund's semi-annual shareholder report for the fiscal period ended September 30, 2016.

From time to time, a manager, analyst, or other employee of BlackRock or its affiliates may express views regarding a particular asset class, company, security, industry, or market sector. The views expressed by any such person are the views of only that individual as of the time expressed and do not necessarily represent the views of BlackRock or any other person within the BlackRock organization. Any such views are subject to change at any time based upon market or other conditions and BlackRock disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for the Fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of the Fund.

Legal Proceedings. On May 27, 2014, certain purported investors in the BlackRock Global Allocation Fund, Inc. ("Global Allocation") and the BlackRock Equity Dividend Fund ("Equity Dividend") filed a consolidated complaint (the "Consolidated Complaint") in the United States District Court for the District of New Jersey against BlackRock Advisors, LLC, BlackRock Investment Management, LLC and BlackRock International Limited (collectively, the "Defendants") under the caption *In re BlackRock Mutual Funds Advisory Fee Litigation*. The Consolidated Complaint, which purports to be brought derivatively on behalf of Global Allocation and Equity Dividend, alleges that the Defendants violated Section 36(b) of the Investment Company Act by receiving allegedly excessive investment advisory fees from Global Allocation and Equity Dividend. The Consolidated Complaint seeks, among other things, to recover on behalf of Global Allocation and Equity Dividend all allegedly excessive advisory fees received by the Defendants in the period beginning one year prior to the filing of the lawsuit and ending on the date of judgment, along with purported lost investment returns on those amounts, plus interest. The Defendants believe the claims in the Consolidated Complaint are without merit and intend to vigorously defend the action.

Conflicts of Interest

The investment activities of BlackRock and its affiliates (including BlackRock, Inc. and PNC and their affiliates, directors, partners, trustees, managing members, officers and employees (collectively, the "Affiliates")) in the management of, or their interest in, their own accounts and other accounts they manage, may present conflicts of interest that could disadvantage the Fund and its shareholders.

BlackRock and its Affiliates provide investment management services to other funds and discretionary managed accounts that follow investment programs similar to those of the Fund. BlackRock and its Affiliates are involved worldwide with a broad spectrum of financial services and asset management activities and may engage in the ordinary course of business in activities in which their interests or the interests of their clients may conflict with those of the Fund. One or more Affiliates act or may act as an investor, investment banker, research provider, investment manager, commodity pool operator, commodity trading advisor, financier, underwriter, adviser, market maker, trader, prime broker, lender, index provider, agent and principal, and have other direct and indirect interests in securities, currencies, commodities, derivatives and other instruments in which the Fund may directly or indirectly invest. Thus, it is likely that the Fund will have multiple business relationships with and will invest in, engage in transactions with, make voting decisions with respect to, or obtain services from, entities for which an Affiliate performs or seeks to perform investment banking or other services. Specifically, the Fund may invest in securities of, or engage in other transactions with, companies with which an Affiliate has developed or is trying to develop investment banking relationships or in which an Affiliate has significant debt or equity investments or other interests. The Fund also may invest in securities of, or engage in other transactions with, companies for which an Affiliate provides or may in the future provide research coverage. An Affiliate may have business relationships with, and purchase, or distribute or sell services or products from or to, distributors, consultants or others who recommend the Fund or who engage in transactions with or for the Fund, and may receive compensation for such services. The Fund may also make

brokerage and other payments to Affiliates in connection with the Fund's portfolio investment transactions. An Affiliate may engage in proprietary trading and advise accounts and funds that have investment objectives similar to those of the Fund and/or that engage in and compete for transactions in the same types of securities, currencies and other instruments as the Fund. This may include transactions in securities issued by other open-end and closed-end investment companies (which may include investment companies that are affiliated with the Fund and BlackRock, to the extent permitted under the Investment Company Act). The trading activities of these Affiliates are carried out without reference to positions held directly or indirectly by the Fund and may result in an Affiliate having positions in certain securities that are senior or junior to, or have interests different from or adverse to, the securities that are owned by the Fund.

No Affiliate is under any obligation to share any investment opportunity, idea or strategy with the Fund. As a result, an Affiliate may compete with the Fund for appropriate investment opportunities. The results of the Fund's investment activities, therefore, may differ from those of an Affiliate and of other accounts managed by an Affiliate, and it is possible that the Fund could sustain losses during periods in which one or more Affiliates and other accounts achieve profits on their trading for proprietary or other accounts. The opposite result is also possible.

In addition, the Fund may, from time to time, enter into transactions in which an Affiliate or its other clients have an adverse interest. Furthermore, transactions undertaken by Affiliate-advised clients may adversely impact the Fund. Transactions by one or more Affiliate-advised clients or BlackRock may have the effect of diluting or otherwise disadvantaging the values, prices or investment strategies of the Fund. The Fund's activities may be limited because of regulatory restrictions applicable to one or more Affiliates and/or their internal policies designed to comply with such restrictions.

Under a securities lending program approved by the Board, the Trust, on behalf of the Fund, has retained BlackRock Investment Management, LLC, an Affiliate of BlackRock, to serve as the securities lending agent for the Fund to the extent that the Fund participates in the securities lending program. For these services, the lending agent will receive a fee from the Fund, including a fee based on the returns earned on the Fund's investment of the cash received as collateral for the loaned securities. In addition, one or more Affiliates may be among the entities to which the Fund may lend its portfolio securities under the securities lending program.

The activities of Affiliates may give rise to other conflicts of interest that could disadvantage the Fund and its shareholders. BlackRock has adopted policies and procedures designed to address these potential conflicts of interest. See the SAI for further information.

Valuation of Fund Investments

A mutual fund is a pool of investors' money that is used to purchase a portfolio of securities, which in turn is owned in common by the investors. Investors put money into a mutual fund by buying shares. If a mutual fund has a portfolio worth \$5 million and has 5 million shares outstanding, the NAV per share is \$1.00. When you buy Service Shares you pay the NAV per share. Although the Fund seeks to maintain an NAV of \$1.00 per share, there is no guarantee it will be able to do so.

The Fund's investments are valued based on the amortized cost method described in the SAI.

The Transfer Agent will probably receive your order from your registered representative, who takes your order. However, you can also fill out a purchase application and mail it to the Transfer Agent with your check. Please call (800) 392-CORE (2673) for a purchase application. Purchase orders received by the Transfer Agent before 12:30 p.m. (Eastern time) on each business day will be priced based on the next NAV calculated on that day, and shareholders will receive dividends for that day.

The NAV is calculated separately for each class of shares of the Fund as of the close of business on the Exchange, generally 4:00 p.m. (Eastern time), each business day. Shares will not be priced on days the Exchange or the Federal Reserve Bank of Philadelphia are closed. The Fund may elect, in its discretion if it is determined to be in shareholders' best interest, to be open on days when the Exchange is closed due to an emergency.

Dividends, Distributions and Taxes

BUYING A DIVIDEND

Unless your investment is in a tax-deferred account, you may want to avoid buying shares shortly before the Fund pays a dividend. The reason? If you buy shares when the Fund has declared but not yet distributed ordinary income or capital gains, you will pay the full price for the shares and then receive a portion of the price back in the form of a taxable dividend. Before investing you may want to consult your tax adviser.

Distributions of net investment income derived by the Fund, if any, are declared daily and paid at least monthly and net realized capital gains, if any, will be distributed at least annually. Dividends will be reinvested automatically in the form of additional shares of the same class of the Fund at NAV unless you instruct the Transfer Agent in writing to pay them in cash.

You will pay tax on ordinary income dividends derived from taxable interest and on capital gain distributions from the Fund whether you receive them in cash or additional shares. If you redeem Fund shares or exchange them for shares of another fund, you generally will be treated as having sold your shares and any gain on the transaction may be subject to tax. Certain dividend income and long-term capital gains are eligible for taxation at a reduced rate that applies to non-corporate shareholders. However, to the extent that the Fund's distributions are derived from income on short-term debt securities and from short-term capital gains, such distributions will not be eligible for taxation at the reduced rate.

A 3.8% Medicare tax is imposed on the net investment income (which includes, but is not limited to, interest, dividends and net gain from investment) of U.S. individuals with income exceeding \$200,000, or \$250,000 if married filing jointly, and of trusts and estates.

By law, your taxable dividends will be subject to a 28% withholding tax if you have not provided a taxpayer identification number or social security number to the Fund in which you invest or the number you have provided is incorrect.

Non-U.S. investors may be subject to U.S. withholding and/or state tax, and will be subject to special U.S. tax certification requirements. Because every investor has an individual tax situation, and also because the tax laws are subject to periodic changes, you should always consult your tax adviser about federal, state and local tax consequences of owning shares of the Fund.

If you are neither a tax resident nor a citizen of the United States or if you are a foreign entity, the Fund's ordinary income dividends (which include distributions of net short-term capital gain) will generally be subject to a 30% U.S. withholding tax, unless a lower treaty rate applies. However, certain distributions reported by the Fund as either interest related dividends or short-term capital gain dividends and paid to a foreign shareholder may be eligible for an exemption from U.S. withholding tax.

A 30% withholding tax is currently imposed on U.S.-source dividends, interest and other income items, and will be imposed on proceeds from the sale, redemption or other disposition of property producing U.S.-source dividends and interest paid after December 31, 2018, to (i) foreign financial institutions, including non-U.S. investment funds, unless they agree to collect and disclose to the Internal Revenue Service ("IRS") information regarding their direct and indirect U.S. account holders and (ii) certain other foreign entities, unless they certify certain information regarding their direct and indirect U.S. owners. To avoid withholding, foreign financial institutions will need to (i) enter into agreements with the IRS that state that they will provide the IRS information, including the names, addresses and taxpayer identification numbers of direct and indirect U.S. account holders, comply with due diligence procedures with respect to the identification of U.S. accounts, report to the IRS certain information with respect to U.S. accounts, agree to withhold tax on certain payments made to non-compliant foreign financial institutions or to account holders that fail to provide the required information, and determine certain other information concerning their account holders, or (ii) in the event that an applicable intergovernmental agreement and implementing legislation are adopted, provide local revenue authorities with similar account holder information. Other foreign entities will need to either provide the name, address, and taxpayer identification number of each substantial U.S. owner or certifications of no substantial U.S. ownership unless certain exceptions apply.

If the Fund imposes a liquidity fee on share redemptions because of a drop in the Fund's weekly liquid assets below certain levels, the amount that would ordinarily be payable to a redeeming shareholder of the Fund will be reduced, consequently reducing the amount of gain, or increasing the amount of loss, that would otherwise be reportable for income tax purposes. The liquidity fee cannot be separately claimed as a deduction.

Any such liquidity fee will constitute an asset of the Fund and will serve to benefit non-redeeming shareholders. However, the Fund does not intend to distribute such fees to non-redeeming shareholders. If the Fund receives liquidity fees, it will consider the appropriate tax treatment of such fees to the Fund at such time.

This section summarizes some of the consequences under current Federal tax law of an investment in the Fund. This discussion is not a substitute for individualized tax advice. You should consult your tax adviser about the potential tax consequences of an investment in the Fund under all applicable tax laws.

Financial Highlights

The Financial Highlights table is intended to help you understand the Fund's financial performance for the periods shown. Certain information reflects the financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund (assuming reinvestment of all dividends and/or distributions). The information has been audited by Deloitte & Touche LLP, whose report, along with the Fund's financial statements, is included in the Fund's Annual Report, which is available upon request.

General Information

Shareholder Documents

Electronic Access to Annual Reports, Semi-Annual Reports and Prospectuses

Electronic copies of most financial reports and prospectuses are available on BlackRock's website. Shareholders can sign up for e-mail notifications of annual and semi-annual reports and prospectuses by enrolling in the Fund's electronic delivery program. To enroll:

Shareholders Who Hold Accounts with Investment Advisers, Banks or Brokerages: Please contact your Financial Intermediary. Please note that not all investment advisers, banks or brokerages may offer this service.

Shareholders Who Hold Accounts Directly With BlackRock:

- Access the BlackRock website at <http://www.blackrock.com/edelivery>; and
- Log into your account.

Delivery of Shareholder Documents

The Fund delivers only one copy of shareholder documents, including prospectuses, shareholder reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is known as "householding" and is intended to eliminate duplicate mailings and reduce expenses. Mailings of your shareholder documents may be househanded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact Westcore Investor Services at (800) 392-CORE (2673).

Certain Fund Policies

Anti-Money Laundering Requirements

The Fund is subject to the USA PATRIOT Act (the "Patriot Act"). The Patriot Act is intended to prevent the use of the U.S. financial system in furtherance of money laundering, terrorism or other illicit activities. Pursuant to requirements under the Patriot Act, the Fund is required to obtain sufficient information from shareholders to enable it to form a reasonable belief that it knows the true identity of its shareholders. This information will be used to verify the identity of investors or, in some cases, the status of Financial Intermediaries. Such information may be verified using third-party sources. This information will be used only for compliance with the Patriot Act or other applicable laws, regulations and rules in connection with money laundering, terrorism or economic sanctions.

The Fund reserves the right to reject purchase orders from persons who have not submitted information sufficient to allow the Fund to verify their identity. The Fund also reserves the right to redeem any amounts in the Fund from persons whose identity it is unable to verify on a timely basis. It is the Fund's policy to cooperate fully with appropriate regulators in any investigations conducted with respect to potential money laundering, terrorism or other illicit activities.

BlackRock Privacy Principles

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, "Clients") and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal non-public information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your Financial Intermediary, on applications, forms or

other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our website.

BlackRock does not sell or disclose to non-affiliated third parties any non-public personal information about its Clients, except as permitted by law, or as is necessary to respond to regulatory requests or to service Client accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to non-public personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the non-public personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

Statement of Additional Information

If you would like further information about the Fund, including how it invests, please see the SAI.

For a discussion of the Fund's policies and procedures regarding the selective disclosure of its portfolio holdings, please see the SAI.

Glossary

This glossary contains an explanation of some of the common terms used in this prospectus. For additional information about the Fund, please see the SAI.

Acquired Fund Fees and Expenses — fees and expenses charged by other investment companies in which the Fund invests a portion of its assets.

Annual Fund Operating Expenses — expenses that cover the costs of operating the Fund.

Daily Liquid Assets — include (i) cash; (ii) direct obligations of the U.S. Government; (iii) securities that will mature, as determined without reference to the maturity shortening provisions of Rule 2a-7 regarding interest rate readjustments, or are subject to a demand feature that is exercisable and payable within one business day; and (iv) amounts receivable and due unconditionally within one business day on pending sales of portfolio securities.

Dollar-Weighted Average Life — the dollar-weighted average maturity of the Fund's portfolio calculated without reference to the exceptions used for variable or floating rate securities regarding the use of interest rate reset dates in lieu of the security's actual maturity date. "Dollar-weighted" means the larger the dollar value of a debt security in the Fund, the more weight it gets in calculating this average.

Dollar-Weighted Average Maturity — the average maturity of the Fund is the average amount of time until the organizations that issued the debt securities in the Fund's portfolio must pay off the principal amount of the debt. "Dollar-weighted" means the larger the dollar value of a debt security in the Fund, the more weight it gets in calculating this average. To calculate the dollar-weighted average maturity, the Fund may treat a variable or floating rate security as having a maturity equal to the time remaining to the security's next interest rate reset date rather than the security's actual maturity.

Distribution Fees — fees used to support the Fund's marketing and distribution efforts, such as compensating Financial Intermediaries, advertising and promotion.

Eligible Securities — Applicable Eligible Securities include:

- securities with a remaining maturity of 397 calendar days or less (with certain exceptions) that BlackRock determines present minimal credit risks to the Fund after considering certain factors;
- securities issued by other registered investment companies that are money market funds; or
- securities issued or guaranteed as to principal or interest by the U.S. Government or any of its agencies or instrumentalities.

Interest Expense — the cost of borrowing money to buy additional securities, primarily through reverse repurchase agreements (under which the Fund sells securities and agrees to buy them back at a particular date and price).

Management Fee — a fee paid to BlackRock for managing the Fund.

Other Expenses — include accounting, administration, transfer agency, custody, professional and registration fees.

Service Fees — fees used to compensate Financial Intermediaries for certain shareholder servicing activities.

Weekly Liquid Assets — include (i) cash; (ii) direct obligations of the U.S. Government; (iii) U.S. Government securities issued by a person controlled or supervised by and acting as an instrumentality of the U.S. Government pursuant to authority granted by the U.S. Congress, that are issued at a discount to the principal amount to be repaid at maturity without provision for the payment of interest and have a remaining maturity of 60 days or less; (iv) securities that will mature, as determined without reference to the maturity shortening provisions of Rule 2a-7 regarding interest rate readjustments, or are subject to a demand feature that is exercisable and payable within five business days; and (v) amounts receivable and due unconditionally within five business days on pending sales of portfolio securities.

SUPPLEMENTAL INSTRUCTIONS FOR WESTCORE INVESTORS

PURCHASES, REDEMPTIONS & EXCHANGES (Continued from inside cover)

Wire, Telephone, and Exchange Procedures:

Wire purchases, telephone redemptions and exchanges will be processed at the net asset value determination next occurring after your order is received and accepted by Westcore. An order will not be accepted unless payment is received by Westcore in acceptable form and in sufficient time to reasonably allow for entry of the order before such determination. An order may not be accepted if a redemption gate or liquidity fee are in place. Purchases by wire may be accepted only for existing accounts. Investors redeeming by wire may be charged a wire fee by their financial institution. Wire redemption proceeds are generally transmitted by Westcore to Westcore investors on the next business day following the date of redemption. Exchanges into a Westcore fund will be processed at Westcore's net asset value determination next occurring after the net asset value determination time when your money market fund account is processed. Exchanges into your money market fund account will be processed at the Money Market Portfolio's net asset value determination next occurring after your Westcore account is processed. Please call 800.392.CORE (2673) for additional information and instructions regarding wire purchase, telephone redemption, and exchange procedures.

Automated Transactions:

You may place transactions or access your account automatically through the Westcore Transaction Center located at www.westcore.com or through the Westcore Automated Service Line at 800.392.CORE (2673).

Annual Small Balance Account Maintenance Fee: Westcore Funds may deduct an annual maintenance fee of \$12 from accounts serviced directly by Westcore Funds with a value less than \$750. It is expected that accounts will be valued for the purpose of calculating this maintenance fee on the first Friday of December each year. The fee is designed to offset in part the relatively higher costs of servicing smaller accounts. This fee will not be deducted from accounts with an automatic investment plan or from accounts of shareholders who have a total of \$10,000 or more invested directly with Westcore in multiple accounts (multiple accounts must have the same Social Security number to qualify).

Shareholder Reports:

Westcore Funds will deliver a single copy of the Money Market Portfolio's financial reports and prospectuses to multiple investors with the same mailing address. Shareholders who desire individual copies of such reports or prospectuses should call 800.392.CORE (2673) or write to us at Westcore Funds, P.O. Box 44323, Denver, CO 80201.

Westcore Investor Service Representative:

For additional information on these or other options, please call a Westcore Investor Service Representative toll free at 800.392.CORE (2673), or visit the Westcore website at www.westcore.com.

This material must be accompanied or preceded by a prospectus. Please read it carefully before investing or sending money.
