A Fund's income from dividends and interest and any net realized short-term capital gains are paid to shareholders as income dividends. A Fund realizes capital gains whenever it sells securities for a higher price than it paid for them. Net realized long-term capital gains are paid to shareholders as capital gain dividends. A dividend will reduce the net asset value of a Fund share by the amount of the dividend on the ex-dividend date.

Distributions paid on non-retirement accounts are taxable regardless of whether they are paid in cash or reinvested. Westcore Funds will mail the appropriate tax forms, including Form 1099-DIV, summarizing the distributions paid for the 2015 calendar year, by February 16, 2016.
